Scholarships

Purdue's Division of Financial Aid maintains a list of scholarships and grants. The Pharmacy Advancement Office maintains a list of scholarships and fellowships specific to the College of Pharmacy.

Doctor of Pharmacy (Pharm.D.) and Pharmaceutical Sciences (BSPS) Scholarships:
Scholarship applications for continuing Pharm.D. and BSPS students are accepted online in late January - early February each year. Recipients are notified of awards in late April that are applied to tuition and fees for the next academic year. Scholarship amounts typically range from $500 to $2,000 and approximately 150 such scholarships are awarded each year. There are also a small number of scholarships awarded to newly admitted Pharm.D. students. Applicants to the PharmD program are evaluated based on the admissions process; No separate application is required.

Requirements: Scholarships are competitive and the scholarship review committees consider the following combination of factors: grade point average, work experience, extra-curricular and leadership activities, and service activities. Certain scholarships target students with an interest in a particular career path.

Applications: Apply online in late January - early February. This single form covers all of the Pharmacy scholarships.
