

## Poster Printer

The College of Pharmacy maintains a large-format printer ("poster printer") in RHPH 216. **Use of the large-format printer is only for students and faculty of the College of Pharmacy.** The poster printer has both a PC and a Mac next to it for use in printing posters; each computer has both Microsoft PowerPoint and Adobe InDesign installed. If you need to connect either computer to the Pharmacy file server to transfer files, [please read these instructions](#).

Detailed instructions for printing posters are in the binder next to the printer, and are also available from the list below. In the back of the binder is a logbook of printouts; please fill it out for every poster you print.

## Availability
