

Medication Safety Research Network of Indiana (Rx-SafeNet)

Member Privacy Policy

Purpose of the Member Privacy Policy

To describe the process for limiting sharing of information about Network members to only those needing such information.

Process for Limiting Information Sharing

- Network personnel will not publicly share rosters of site coordinators and/or pharmacy names. Purdue College of Pharmacy and CTSI leadership will have access to rosters by request.
- When necessary for Network operations (e.g., announcement of quarterly awards, assistance with identifying study sites, site coordinator calls), Rx-SafeNet members and collaborating investigators will have knowledge of others participating in Rx-SafeNet. Emails and newsletters sent to network members may reference awards and achievements of site coordinators and/or pharmacy staff.
- Network members/site coordinators are welcome to disclose their involvement with Rx-SafeNet to whomever they please at any time.
- Members are not permitted to release names of other pharmacies/site coordinators associated with Rx-SafeNet without their permission.
- Investigators may not list specific pharmacy/personnel names in publications/reports without permission.
