IU Health Bloomington Hospital – Summer Internship Program

Site Description
IU Health Bloomington, located approximately 50 miles south of Indianapolis, is a non-for profit institution of the IU Health System located in Bloomington, IN. It is comprised of, both, inpatient and outpatient services and provides healthcare for a 10 county region of Southern Indiana. The hospital is licensed for 350+ beds and is a regional institute for treating cancer, cardiovascular disease, orthopedics, neurosciences, behavioral health, medical emergencies and women & child health. It is one of the largest providers of healthcare in the South Central region of Indiana.

IU Health Bloomington’s Pharmacy Department is comprised of approximately 60 staff members, including 2 PGY1 pharmacy residents. Pharmacy services include inpatient clinical and distributive services, primary care clinical services, outpatient pharmacy, home health pharmacy, anticoagulation clinic, and an indigent clinic pharmacy.

Program Description
This program is designed to provide motivated pharmacy students with the opportunity to gain exposure to hospital pharmacy. The program will last 3 months during which students will be trained to work as inpatient pharmacy technicians. Interns will have the opportunity to complete a longitudinal project and shadow various clinical pharmacy specialists. Interns will also receive mentoring to help prepare them for their future endeavors.

Program Goals:
- Acquire pharmacy experience by training to work as an inpatient pharmacy technician
- Gain exposure to research by completing a longitudinal research project
- Build presentation skills by providing a presentation to pharmacy staff
- Prepare to be competitive for residency and job interviews by building resume and clinical experience
- Discuss job application process by reviewing CV, discussing interview questions, and providing insight into residency/job selection process

Expectations of Applicant
- Motivated and open to completing a variety of experiences
- Willing to accept constructive feedback and consistently improve during the course of their internship
- Friendly and excited to interact with a variety of healthcare professionals
- Able to manage time and expectations of internship appropriately

Housing
Intern is responsible for securing their own housing. Bloomington is home to Indiana University. Many students look to sublease during the summer months.

Compensation:
$15.11 per hour
Selection Process
- Pharmacy students should follow the instructions below to submit their application between January 3, 2017 to February 1, 2017.
- Applications will be reviewed and a phone interview will be scheduled by late February 2017.
- Applicants will receive notification of internship offer by March 2017.
