Assessment of the activities and accomplishments of the School of Pharmacy and Pharmaceutical Sciences over the past year has affirmed the continued excellence of our programs and the exciting future that lies before us. As you will find throughout this Annual Report, the School has experienced another year of success and new opportunities.

This year marked the completion of a successful Campaign for Purdue, raising over $1.7 billion dollars. The School of Pharmacy and Pharmaceutical Sciences more than doubled its goal of raising $30 million. Much thanks for this success goes to our Director for Advancement, Chris Smith, as well as our campaign co-chairs, Chuck Flemming (BS 1957, MS 1964, HDR 1994) and Dick Brychell (BS 1973).

It was with great excitement that we announced a grant of $25 million to the School of Pharmacy and Pharmaceutical Sciences from the Lilly Endowment in December of 2006. This grant is intended to support several initiatives that will increase the impact and visibility of our School, as well as contribute to the impact of pharmacy on health care delivery. The resources provided through this grant will truly be transformative and place the School in an even stronger position of leadership nationwide.

Well before my arrival on campus last year, I was aware of the rich tradition of leadership rooted at Purdue. Throughout the past year, I have had the privilege of interacting with many of these leaders as they have returned to campus for various activities and awards. The School of Pharmacy and Pharmaceutical Sciences honored several distinguished alumni and friends at an awards event on November 10, 2006. Stanley Beck (BS 1955), John Derr (BS 1958), Gerald Migliaccio (MS 1979), and Thomas Zioncheck (PhD 1988) received the Distinguished Alumni Award. Don Newman (BS 1947, HDR 1987) was honored with the Career Achievement Award, and the Friend of Pharmacy Award was presented to Joyce Collins. Congratulations to these individuals for their outstanding achievements in professional and scientific endeavors.

We were honored to have Dr. Janet Woodcock, Chief Medical Officer of the Food and Drug Administration, speak as our Tyler Distinguished Lecturer in February of 2007. Prior to her current appointment, she served as Deputy Commissioner for Operations and Chief Operating Officer of the FDA.

The Spring 2007 Dean’s Executive Forum hosted several outstanding alumni and friends of Purdue Pharmacy. The Forum provides an opportunity for the exchange of ideas and promotes greater understanding of leadership in the profession of pharmacy. Students benefit from the varied experiences of the guest lecturers, and the lecturers enjoy the lively exchange of questions and answers by well-informed students. The School was pleased to host the following guest lecturers: Jennifer Asay (BS 1994), Christopher Dimos (BS 1988), John Grant, Jim Haas (BS 1973, MS 1974), J. Frank Nash (BS 1981, MS 1984, PhD 1986), Jon Sprague (PhD 1994), Dal-Mar (Deeni) Taylor (BS 1980), S. Duann Vanderslice (BS 1992), and Alisa Wright (BS 1987).

This past year brought sadness, as well. The School lost three outstanding professor emeriti. With great fondness, we remember Dr. Robert V. Evanson (BS 1947 MS 1949, PhD 1953) (Pharmacy Administration), Dr. Adelbert M. Knevel (PhD 1957) (Medicinal Chemistry), and Dr. Roger P. Maickel (Pharmacology and Toxicology). This past year we also shared in the loss of Dana Mason, beloved wife of Associate Dean Holly Mason. Recently, the University recognized Dana’s substantial contributions to our School of Nursing by posthumously awarding her status as professor emerita. This is a fitting tribute to Dana, as her impact on the University and surrounding community will be felt for years to come.

We have made some organizational changes within the College over the past fiscal year, as well as at the start of this new academic year. After nearly 19 years of service as Associate Dean for Research and Graduate Programs, Dr. Marc Loudon indicated his desire to return to the faculty to pursue several scholarly projects. As Dr. Loudon’s 80% administrative commitment was not conducive to maintaining a research program, I have elected to split his administrative responsibilities into two positions. I am pleased that Dr. Val Watts has agreed to serve as Associate Dean for Research, while Dr. Eric Barker accepted the appointment as Assistant Dean for Graduate Programs. The reporting structure for Continuing Education, the Purdue Pharmacy, and Experiential Programs has also been brought into the Dean’s Office with the creation of an Assistant Dean for Clinical Programs. Dr. Steve Abel has assumed this new role, in addition to his responsibilities as Head of the Department of Pharmacy Practice. In the coming months, we hope to bring on board a new Assistant Dean for Assessment and Accreditation in the College.

Purdue University welcomed a new president on July 16, 2007. Dr. France Córdova comes to us having most recently served as Chancellor at the University of California Riverside. Trained as an astrophysicist, she brings a wealth of experience as a scientist and administrator. A search for a Provost and a Vice President for Research is underway, positions we anticipate to be filled by the end of the academic year. We are confident that the infusion of new leadership will bring new energy and vision to guide the university to even greater heights!

Hail Purdue!

Craig K. Svensson
Dean
This chart represents positions held during the 2006-07 academic year.
This past year has been a remarkable one, and the Annual Report allows us the opportunity to highlight some of the many accomplishments of the School of Pharmacy and Pharmaceutical Sciences.

The School was pleased to welcome Dana Neary as Manager of Alumni Relations and Special Events in September, 2006. She has tirelessly organized several events throughout the country this past year, and the School enjoyed reconnecting with our alumni. Receptions held at various professional meetings—such as the AAPS Meeting in San Antonio, the ASHP Meeting in Anaheim, the APhA Meeting in Atlanta, and the American Society of Health-System Pharmacists Summer Meeting in San Francisco—gave alumni the opportunity to meet Dean Craig Svensson. The School also hosted receptions in Fort Wayne, Indianapolis, Louisville, New Jersey, and Orlando, and alumni had the opportunity to return to campus for events such as the Pharmacy Spring Fling, the 11th Annual BoileRx Golf Classic, and the Dean’s Joint Advisory Council Meeting.

We also are pleased to share some of the contributions made to the School for the 2006-07 fiscal year. Although these specific gifts no doubt provide enhanced opportunities for our students, the School achieves success through the broad based effort of annual donations from alumni and friends. We are proud of our high percentage of giving participation, and every gift makes a difference.

October, 2006, was an extremely exciting time for the School. Two dedications were held to celebrate the many improvements happening to the Heine Pharmacy Building. The completion of the CVS Pharmacy Practice Laboratory enabled students to begin using the new facility in the fall of 2006. The renovations would not have been possible without the generous support from our donors: CVS Corporation, Kroger Company, PharmaCard, Inc., Walgreens Company, Bob (BS 1951) and Sondra Brown, Dick (BS 1973) and Susan Brychell, Jim and JeanAnne (BS 1961) Chaney, Tom (BS 1977, Management) and Karen (BS 1978) Jeppson, Marvin (BS 1980) and Melanie Richardson, and Bernie and Judy (both BS 1966) Williams. Students also had the pleasure to begin using the Hook Drug Foundation Student Lounge. The much needed renovations to the lounge were made possible by the Hook Drug Foundation, as well as Bob (BS 1951) and
Sondra Brown, Jim and JeanAnne (BS 1961) Chaney, Jeffrey and Cheryl (both BS 1979) Green, the Estate of Allen and Hester Wolfe Collins — Parents of Carolyn Collins (BS 1970), the Estate of William and Janet (BS 1938) Strang, the School of Pharmacy and Pharmaceutical Sciences Classes of 2004 and 2005, and the Rho Chi Pharmacy Honor Society. Sincere thanks are extended to these many benefactors.

Several endowments were established this past year. The Dr. Aziz Endowment Fund was established by Hamid (BS 1985) and Ladan Abbaspour in honor of his eldest brother, Aziz Abbaspour. The endowment fund will support an annual award known as the “Dr. Aziz Outstanding Teacher of the Year Award” in order to recognize a faculty member. Dr. Eric Barker, Associate Professor of Medicinal Chemistry and Molecular Pharmacology, was the first recipient at the University Honors Convocation on April 15, 2007. Other endowments include the Dean H. and Mildred Findley International Endowment Fund, established by their daughter Joyce Findley; the Carl and Frances Owen Lifeline Scholarship through an anonymous donor; the Rodger D. Logan Endowment Fund established by Terry Cole (BS 1963, MS 1964); and the Jim and JeanAnne Chaney Pharmacy Student Support Fund by Jim and Jeannie (BS 1961) Chaney.

The School also gratefully acknowledges our Corporate Partners: The Chao Center for Industrial Pharmacy & Contract Manufacturing; CVS/pharmacy; CVS/Caremark Corporation; Kroger; Mylan Laboratories, Inc.; Pfizer, Inc.; SSCI, Inc.; SUPERVALU Pharmacies, Inc.; and Walgreens Company. The Corporate Partner program was established in the Spring of 2001 to give corporate friends the opportunity to allocate funds to several areas within the School throughout the year. Annual $10,000 Partner contributions support events such as the BoileRx Golf Classic, the Donor Recognition Brunch, and the Graduation Banquet. Partner funds will also aid in the advancement of Multicultural Programs, provide a scholarship, and assist various student organizations. The School is proud to partner with such outstanding companies and truly appreciates their generous support.

The School of Pharmacy and Pharmaceutical Sciences looks forward to meeting with more alumni during the coming year, and we encourage each of you to become involved. Sharing your time and expertise with the School and our students, as well as your financial contributions, enhances the overall success of our programs and future alumni, and we thank you for your continued support.

Sincerely,
Christopher Smith
Director of Advancement
INDUSTRIAL AND PHYSICAL PHARMACY

Reaching New Heights
Just as Purdue University has completed its largest expansion in recent history, the Industrial and Physical Pharmacy (IPPH) department has completed an expansion from six faculty to 12 faculty. Just as the expansion of Purdue has enabled it to achieve new heights, the IPPH expansion has helped establish IPPH as the leading department of its kind.

Highlights for 2006-07 include the establishment and development of the NSF Engineering Research Center focused on Engineering and Pharmaceutical Sciences (Structured Organic Composites). The IPPH department is providing the pharmaceutical expertise for this Center and part of Professor Ken Morris’ group is now occupying laboratories in the Potter engineering building where a roller compaction manufacturing line has been constructed. Professor Lynne Taylor is now widely recognized as one of the leading researchers in the area of amorphous materials. Dr. Taylor was promoted to Associate Professor this year. Professor Kinam Park’s appointment as Showalter Distinguished Professor of Biomedical Engineering has allowed him to expand his world-class research program in drug delivery. Additionally, collaboration of Professor Steve Byrn’s group with the scientists in Biomedical Engineering and the Center for Paralysis Research has provided some exciting new lead molecules for the treatment of spinal cord injuries. For the second year in a row, the IPPH department was able to hire perhaps the leading assistant professor candidate in the country. Dr. Yoon Yeo joined the IPPH department after postdoctoral research at MIT and is destined to become one of the top researchers in drug delivery of proteins and biomolecules. IPPH continues to be extensively involved in interdisciplinary activities and participates in at least five centers: CAMP (Consortium for the Advancement of Manufacturing in Pharmacy), joint with MIT; CPPR (Dane O. Kildsig Center for Pharmaceutical Processing Research), joint with UConn; University of Puerto Rico; and the University of Minnesota.

National recognition continues at a high level. Kinam Park continues his service as a permanent member of the NIH Biomedical Engineering study section and Ken Morris remains the chair of the FDA Pharmaceutical Sciences Advisory Committee. Graduates with IPPH specialization are in high demand despite the tight pharmaceutical job market. Our three most recent graduates took jobs at Lilly, Schering, and Merck.

Strong financial support for IPPH programs from alumni continues. Feedback from alumni indicates significant enthusiasm, especially for the pharmaceutical engineering programs. IPPH faculty participated in a number of start-up companies including Andara which is working in the area treatments of spinal injury. The Division of Nuclear Pharmacy continues to be one of the strongest NUPH programs in the country.

As we move into a new era with Dean Svensson and President Cordova, we plan to continue to develop our core areas of expertise in Development Science, Manufacturing Science, and Drug Delivery.
For many years, the Department of Medicinal Chemistry and Molecular Pharmacology (MCMP) has provided important leadership at both the College and University level. This has been a year of significant change. For the past 19 years, Marc Loudon has served the College with distinction as Associate Dean for Research and Graduate Programs. Marc has now stepped down from this position and returned to MCMP full time. He will spend the next six months on sabbatical leave to complete the new edition of his widely acclaimed organic chemistry textbook. Marc’s responsibilities have been assumed by two MCMP faculty who will serve part time in their respective administrative capacities. Val Watts has been appointed Associate Dean for Research, and Eric Barker has been appointed Assistant Dean for Graduate Programs. Both Val and Eric will maintain active research programs and continue their teaching contributions to the professional and graduate programs.

Among many important research advances in the Department this year, the progress of two drugs developed by Arun Ghosh is especially noteworthy. Darunavir is an HIV protease inhibitor that has been approved by the FDA for the treatment of drug-resistant HIV. The HIV virus rapidly mutates, and the structure changes induced in the protease lead to resistance of the protease inhibitors now in widespread use. Arun designed Darunavir to target an unchanged “backbone” region of the protease, thus decreasing the probability of resistance developing. He continues to apply structure-based drug design to the synthesis of more potent and broadly active HIV protease inhibitors. Arun has also designed a drug designated CTS-21166 that inhibits beta-secretase, a key enzyme in the progression of Alzheimer’s disease that triggers the formation of amyloid plaques in the brain. CTS-21166 is both potent and highly selective, and it has now entered Phase I clinical trials where it will be assessed for safety and tolerability in healthy volunteers.

Purdue has enjoyed the distinction of having a campus-wide National Cancer Institute-designated Cancer Center continuously since 1979, and all three Directors in the history of the Center (Drs. Morré, Baird, and Borch) have been members of the MCMP faculty. The Department has now relinquished this important leadership responsibility. After serving as Cancer Center Director for almost 10 years, Rick Borch has stepped down from this position. Rick will continue to serve as MCMP Department Head, and he remains an active contributor to the Department’s research and teaching programs.

The MCMP graduate program continues to thrive. We currently have 100 students pursuing graduate degrees in the laboratories of MCMP faculty; 31 of these students are enrolled in one of Purdue’s interdisciplinary graduate programs. This past year we awarded eleven Ph.D. degrees and two M.S. degrees. Nineteen new students were accepted into the MCMP graduate program this fall; we anticipate that additional Purdue Interdisciplinary Life Sciences (PULSe) students will be joining faculty laboratories when those students select thesis mentors later this year. Our faculty continues to provide an outstanding training environment that prepares our students well for future scientific careers.
PHARMACY PRACTICE  Advancing Pharmacy Technology
This past year marked the launch of activities associated with the $25 million Lilly Endowment grant, A Plan to Preeminence for Purdue Pharmacy. Within the Department of Pharmacy Practice, position descriptions were developed for an endowed chair of medication safety and an endowed professor of adverse drug reactions. A program description was developed for PharmaTAP, a pharmacy technical assistance program designed to augment Purdue’s pre-existing healthcare technology advancement program. Carol Birk (BS 1974) will assume responsibility for directing our PharmaTAP program in August 2007. We look forward to future collaboration with our practice partners within the health-system and community pharmacy setting as we develop prototype sites to optimize medication safety. This will include the development of a community-based program for adverse drug reaction reporting and management.

Each year we highlight the efforts of faculty and staff who have distinguished themselves within the areas of learning, discovery, and engagement. This year we would like to take the opportunity to place the spotlight on individuals who contribute significantly to our programs but whose functions often exist in the shadows. The first group of individuals serves on a part-time basis in meeting the needs of the students within the Purdue University Pharmacy. Chuck Brown (BS 1963) (a professor-emeritus and now part-time employee), Nancy Chapman (BS 1983), Susie Marshall (BS 1969), and Josh Olbricht enhance our programs through their work as pharmacists within the Purdue Pharmacy, but more importantly as role models and educators for our students. Without these staff members, it would not be possible for us to maintain the level of quality services provided through the Purdue Pharmacy, nor would it be possible to provide the quality educational experience expected for our students.

The second group of individuals serves as adjunct or affiliate faculty members who dedicate a significant amount of time in facilitating the success of our regionalized program for advanced pharmacy practice experience. Jennifer McComb (PharmD 1984) (Fort Wayne) and Rick McDowell (BS 1974, MS 1976) (Evansville) are adjunct faculty members, through agreements between the School of Pharmacy and Pharmaceutical Sciences and their practice sites at Lutheran Health Network and St. Mary’s Medical Center, respectively. Marjorie (Marjie) Biel (PharmD 2002), Jane DeJong, and Heather Sell (BS 1997, PharmD 1998) are affiliate faculty members based in Northwest Indiana; South Bend, Indiana; and Chicago, Illinois. These five individuals have worked tirelessly to assist us with the daily operations of advanced clerkship, identification and development of advanced clerkship sites, and enhancement of the overall experiential learning experience for our students. Without the efforts of these individuals, our regionalized plan for advanced practice experience could not be sustained, and we are most appreciative of their work.

Nikki Price (BS 1993)
Director of Pharmacy Education and Development
SUPERVALU Incorporated

“Being part of a company who values the education that Purdue has given and continues to give has enabled me to see the benefits of giving back. Because of this, I always wanted to be able to do something myself. It has been extremely rewarding to be able to meet the recipients and see the continued tradition of excellent students graduating from Purdue. Though this was purely a selfish reason for giving, it certainly has been a benefit for everyone involved.”

GRADUATE degrees AWARDED

Industrial and Physical Pharmacy

Chen Mao, Ph.D.
Co-Major Professors: Stephen R. Byrne and Rodolfo Pinal
Thesis Title: Structural Relaxation and Molecular Mobility in Organic Amorphous Pharmaceutical Compounds
Post-graduation destination: Industry, Scientist, Schering-Plough

Rong (Rosa) Huang, Ph.D.
Major Professor: Richard E. Borch
Thesis Title: Design, Synthesis, and Biological Activity of SH2 Domain Inhibitors

Elif Olmez Ozkirimli, Ph.D.
Major Professor: Carol B. Post
Thesis Title: Characterization of Structural and Dynamic Properties of Syk Tandem SH2 Domain and Its Interaction with Diphosphorylated ITAM Important in B Cell Signaling Regulation

Pharmacy Practice

Menaka Bhor, Ph.D.
Major Professor: Kimberly S. Plake
Thesis Title: Relationship Between Health Literacy, Outcome Expectations, Efficacy Expectations, and Medication Adherence

Seema Dhiriqal Dedhiya, Ph.D.
Major Professor: Joseph Thomas III
Thesis Title: Prevalence and Incidence of Potentially Inappropriate Medications Prescribed to Elderly Indiana Medicaid Beneficiaries Residing in Nursing Homes and Associations with Hospitalizations and Mortality

Cheryl Ann Dziak, M.S.
Major Professor: Stephen R. Byrne
Non-thesis option with a concentration in Regulatory and Quality Compliance

Richard Sikulu Walulu, M.S.
Major Professor: Mark A. Green
Thesis Title: Synthesis and Characterization of [Re(CO)3]+ Complexes with Tripodal Tridentate Amine Ligands
Post-graduation destination: Pursue a Pharm.D. degree at Southern Illinois University

Nwanne Anadu, Ph.D.
Major Professor: V. Jo Davison
Thesis Title: Investigating the Mechanism of Anticancer Activity of the Natural Product: Brefeldin A

Nancy Patricia Aiello, M.S.
Major Professor: Victor Theron Hildebrand
Non-thesis option with a concentration in Regulatory and Quality Compliance

Heather White Leavesley, M.S.
Major Professor: Gary E. Isom
Thesis Title: Cytochrome c Oxidase Binuclear Center Interactions at the Cytochrome c Oxidase Binuclear Center
Post-graduation destination: Ph.D. student, MCMP, Purdue University

Thomas Handley McLean, Ph.D.
Major Professor: David E. Nichols
Thesis Title: Conformationally-Restricted Analogs of Hallucinogenic Phenethylamines as Functionally-Selective Agonists of the 5-HT2A Receptor
Post-graduation destination: Senior Synthetic Organic Chemist, Broad Institute of the Harvard University, Corporation, Cambridge, MA

Sarah Annette Reigard, Ph.D.
Major Professor: Richard A. Gibbs
Thesis Title: Tools for Farneyleated Protein Modulation and Identification

Thomas J. Lisk, M.S.
Major Professor: M. Teresa Carvajal
Non-thesis option with a concentration in Regulatory and Quality Compliance

Michael Robert Braden, Ph.D.
Major Professor: David E. Nichols
Thesis Title: Towards a Biophysical Understanding of Hallucinogen Action
Post-graduation destination: Education, postdoc, University of Montana, Missoula, MT

Justin C. Oliver, Ph.D.
Major Professor: V. Jo Davison
Thesis Title: Chemical and Structural Dynamics of Guanosine Monophosphate Synthetase
Post-graduation destination: Industry

Yajie Zhang, Ph.D.
Major Professor: Carol B. Post
Thesis Title: Characterization of Structural and Dynamic Properties of Syk Tandem SH2 Domain and Its Interaction with Diphosphorylated ITAM Important in B Cell Signaling Regulation

Fei Zhou, Ph.D.
Major Professor: Robert L. Geahlen
Thesis Title: Syk Signalling and Trafficking During B Cell Activation

Post-graduation destination: Industry

Nguyen A. Huy, M.S.
Major Professor: M. Teresa Carvajal
Non-thesis option with a concentration in Regulatory and Quality Compliance

Fredrick selections

Major Professor: Robert L. Geahlen
Thesis Title: Syk Signalling and Trafficking During B Cell Activation

Post-graduation destination: Industry

Nguyen A. Huy, M.S.
Major Professor: M. Teresa Carvajal
Non-thesis option with a concentration in Regulatory and Quality Compliance

Fredrick selections

Major Professor: Robert L. Geahlen
Thesis Title: Syk Signalling and Trafficking During B Cell Activation

Post-graduation destination: Industry

Nguyen A. Huy, M.S.
Major Professor: M. Teresa Carvajal
Non-thesis option with a concentration in Regulatory and Quality Compliance

Fredrick selections

Major Professor: Robert L. Geahlen
Thesis Title: Syk Signalling and Trafficking During B Cell Activation

Post-graduation destination: Industry
The Jenkins-Knevel and Kienly Awards Symposium

The Jenkins-Knevel and Kienly Awards Symposium was held on November 9, 2006. The Kienly Awards have been endowed since 1976 by gifts from Dr. Albert V. Kienly, Jr., as well as by an anonymous faculty gift in memory of Dr. Kienly’s father and mother. Dr. Kienly, Jr., who passed away in November of 2002, graduated from the Purdue University School of Pharmacy in 1940, and his father graduated from the School in 1901. The 2006 recipients of the Kienly Awards were: Animesh Aditya, Medicinal Chemistry and Molecular Pharmacology; Sai Prasanth Chamarthy, Industrial and Physical Pharmacy; and Suwanna Phattarabenjapol, Pharmacy Practice.

The Jenkins-Knevel Awards are supported by Dr. Serena Ford, daughter of Dr. Glenn L. Jenkins, Dean of the School of Pharmacy from 1941 to 1966, and other donors. They are given in honor of Dr. Jenkins and Dr. Adelbert M. Knevel (PhD 1957), professor emeritus and former Associate Dean for Graduate Studies and Research from 1969-1987. Dr. Knevel passed away in December of 2006. The 2006 recipients of the Jenkins-Knevel Awards were: Michael Braden, Medicinal Chemistry and Molecular Pharmacology (Empirical Support for a Serotonin 2A Receptor Homology Model from Site-directed Mutagenesis Studies); David Engers, Industrial and Physical Pharmacy (Microstructure Evolution and the Physical Stability of Amorphous Solids); Xin Zhang, Pharmacy Practice (Prediction of the Inhibition of CYP3A by Erythromycin and Diltiazem Along and in Combination Using Physiologically-based Pharmacokinetic Models); and Yajie Zhang, Medicinal Chemistry and Molecular Pharmacology (Structural and Dynamic Studies of Syk Tandem SH2 Domain Reveal the Mechanism of Phosphorylation of Tyr-130 in Regulating Syk and B-cell Receptor Interaction).

“Giving a portion of your time, or talents, or treasures to your profession is one of the satisfying experiences that accrues to a professional. Which ever is your “gift,” I would encourage you to consider sharing your particular richness with your Purdue School of Pharmacy. It truly is a gift that keeps on giving. It says so much about you, your profession, and the students following in your pathway. Join me in making this year a special year.”

Edward L. Langston (BS 1967)
Physician, American Health Network
Chair, Board of Trustees of the American Medical Association
The School of Pharmacy and Pharmaceutical Sciences expresses sincere gratitude to the Merck Company Foundation for establishing the Merck Scholar Awards to provide scholarships to students enrolled in the Bachelor of Science in Pharmaceutical Sciences Program. Merck pledged $50,000 in scholarship funds to encourage students to pursue careers in industrial pharmacy which provides a solid background in chemistry and science. The gift supports four undergraduate scholarships per year for five years, and the first Merck Scholar Award recipients were selected in the spring of 2002. The recipients are Karen Helwig, Christy Javella, Steven Kaverman, Anastasia Lityo, and Siyuan Yang. Previous recipients include Holly Angermeier, Jacquelyn Cloonen, Sarah Dunn, Molly Fricke, Justin Guinn, Amanda Hinkle, Jonathan Hoggatt, Mary Katherine Jungbluth, Tippi Khan, Ryan McCann, Stephanie Noe, Laura Rearick, Megan Reimann, Robert Ribeiro, Carolyn Roedel, Rebecca Turner, and Eric Van Horn.

Donald Barrick (BS 1976), Senior Manager in New Products Planning for Merck and Company, Inc., says “The bachelor of science program provides great preparation for careers in the areas of production technical support, pharmaceutical research and development, manufacturing or regulatory affairs. Merck is proud to support such an innovative degree program, and we are confident that it will attract bright, talented students who will become future leaders in our industry.”

Congratulations to the recent recipients of the Merck Scholar Award, and sincere thanks to Merck for its continued support of the School of Pharmacy and Pharmaceutical Sciences.
THE SCHOOL OF PHARMACY AND PHARMACEUTICAL SCIENCES

Donor Honor Roll

Gifts received during July 1, 2006-June 30, 2007
**Pinnacle Society**  
($10,000 & higher)  
Hamid & Ladan Abbaspour  
James Appino  
Gilbert & Gwen Banker  
Donald & Susan Barrick

“I believe in the concept of ‘pass it forward.’ As my life has been enriched by my academic and personal experiences at Purdue, I want to pass that same opportunity on to others. One way to do that is by ensuring Purdue University and the School of Pharmacy have the resources needed to provide continued academic and research excellence for students. I hope that all other alumni reflect and take personal action so that they too can ‘pass it forward.’”

The School of Pharmacy and Pharmaceutical Sciences strives to accurately recognize our donors. If for any reason you feel that your name has been omitted or listed incorrectly, please contact Linda Yelton, Manager of Stewardship, at (765) 494-1370 or lyelton@purdue.edu.

We invite all of you to participate at the appropriate giving club level. Every gift counts, and we thank each and every one of you for your support.
### Corporations, Foundations, and Other Organizations

**Gifts received during July 1, 2006–June 30, 2007**

SCHOOL OF PHARMACY
Faculty: J. L. Borowitz, R. E. Galinsky,
J. C. Roche
Graduate Students: P. Marsac
(IPPH), T. Preliou (PHPR)
Undergraduate Students:
C. Clem, H. Owuor

School of Nursing
Faculty: J. Kinyon, E. A. O’Neil,
K. Yehle
Undergraduate Students:
Rachel Bishir
Graduate Students:
Emily Hilycord

School of Health Sciences
Faculty: K. Stantz, N. J. Zimmerman,
W. Zheng
Graduate Students: J. Harris
Undergraduate Students: B. Swartz

Grievance Committee
Chairperson: G. E. Isom
Secretary: J. E. Tisdale
Steering Committee: K. S. Plake,
A. D. Brown, L. P. Sands

TERM EXPIRING TWO WEEKS
BEFORE BEGINNING OF FALL SEMESTER, 2007:
Pharmacy: E. L. Barker,
P. L. Darbishire, K. R. Morris,
B. R. Overholser, K. S. Plake,
C. M. Scott, V. J. Watts,
A. J. Zillich
Nursing: M. Brasswell, A. D. Brown,
K. Chang, S. D. Rudman, L. P. Sands
Health Sciences: J. J. Li

TERM EXPIRING TWO WEEKS
BEFORE BEGINNING OF FALL SEMESTER, 2008:
Pharmacy: D. E. Bergstrom,
J. L. Borowitz, B. C. Carlstedt,
M. T. Carvajal, T. Hazbun,
G. H. Hockerman, G. E. Isom,
K. M. Sowinski, J. E. Tisdale
Nursing: N. C. Lottes, P. M. Aaltonen,
C. L. Baird, C. L. Bozich Keith,
J. Kinyon
Health Sciences: S. Liu

Graduate Programs and Policies Committee
G. M. Loudon, Chmn., E. L. Barker,
S. L. Hem, J. C. Novak, J. Thomas,
W. Zheng

Health and Safety Committee
G. M. Loudon, Chmn., P. M. Aaltonen,
S. R. Holladay, M. M. Murawski,
R. Pinal, J. B. Rogers, K. M. Sowinski
(IUMC liaison), J. F. Schweitzer

Representatives to United Way Campaign
R. V. Weatherman, MCMP, Sr. Chair,
N. E. Edwards, Nursing, Jr. Chair

Educational Technology Committee
G. M. Loudon, Chmn., D. Allen,
E. L. Barker, B. C. Carlstedt, K. Chang,
J. Kirkpatrick, J. Rattray, M. Sharp,
K. D. Weatherman

Murphy Award Committee
S. L. Hem, Chmn., L. Knueven
(NUR Student), F. Foster (HSCI Student),
L. Geddes, G. M. Loudon,
T. Seto (PSG), G. T. Wilson,
N. J. Zimmerman, Pharmacy
Student from among three serving
on School Committee

Minority Advocacy
C. K. Svensson, Chmn., M. I. Altman,
C. L. Ashendel, S. R. Byrn,
M. T. Carvajal, M. L. Geiger,
J. B. Jimerson, H. L. Mason,
K. R. Morris, M. M. Murawski,
K. S. Plake, F. Rosenthal, V. J. Watts

* Dean Svensson is an ex-officio member of all committees (except Grade Appeals and School Grievance Committees) to which he is not specifically named.

Industrial and Physical Pharmacy
Daniel T. Smith was hired as Research Professor and Yoon Yeo was hired as Assistant Professor. Lynne S. Taylor was promoted to Associate Professor. Gintaras “Rex” Reklaitis and Venkat Venkatasubramanian, both from Chemical Engineering, accepted courtesy appointments.

Medicinal Chemistry and Molecular Pharmacology
Weiguo Andy Tao, from Biochemistry, accepted a courtesy appointment.

Pharmacy Practice
Jennifer L. Morris was hired as Clinical Assistant Professor of Pharmacy Practice. Deanna Kania was promoted to Clinical Associate Professor of Pharmacy Practice. Amy H. Sheehan, Kent H. Summers, and G. Thomas Wilson were promoted to Associate Professors of Pharmacy Practice with tenure. Craig D. Williams resigned as Clinical Assistant Professor of Pharmacy Practice to Oregon State University Charles H. Brown, Associate Professor of Pharmacy Practice, retired. Julie Everett Nyongesa, Associate Professor of Pharmacy Practice, passed away on July 17, 2006.
Faculty Awards and Recognitions

Eric L. Barker
2007 Dr. Aziz Outstanding Teaching Award, Purdue University School of Pharmacy and Pharmaceutical Sciences.

Richard F. Borch
Fellow of the American Association for the Advancement of Science, 2003-present.

Judy T. Chen

Raymond R. Galinsky

Robert L. Geahlen
Outstanding Alumni Achievement Award, Colorado State University-Pueblo.

Richard A. Gibbs
University Faculty Scholar, 2006-2010.

Marietta L. Harrison
Awarded the Walther Cancer Institute 2006 Collaborator of the Year Award

Karen S. Hudmon
2007 Wiederholt Prize, American Pharmacists Association, for outstanding published research paper (co-awardee with co-authors B.A. Berger and H. Liang).

Yaman Kaakeh
Recognition of Excellence Award, Parkview Memorial Hospital, service award, February 2007.

Kenneth R. Morris
2007 Fellow, American Association of Pharmaceutical Sciences.

Christiane L. Nash
Faculty Preceptor of the Year 2006-2007, Purdue University School of Pharmacy and Pharmaceutical Sciences.

Carol A. Ott
Outstanding Faculty Advisor Award for 2006-2007, Purdue University School of Pharmacy and Pharmaceutical Sciences.

J. Christophe Rochet
Young Investigator Award, American Academy of Nanomedicine.

Craig K. Svensson
2006 Fellow, American Association of Pharmaceutical Scientists.

Joseph Thomas III
Seed for Success Award, Purdue University, award given by the president to recognize faculty who have contributed greatly to Purdue's success in funded research.

Kara Duncan Weatherman
Fellow, American Pharmacists Association (APhA), March 2006.

Alan J. Zillich
American Pharmacists Association Annual Meeting Presentation Merit Award. Award for Excellence in Distance Learning, Purdue University School of Pharmacy and Pharmaceutical Sciences.

Cheng-Deng Hu
Holly Durren, Travel Award to 16th International Worm Meeting; John Shyu, 2007 Purdue University System Student Research Competition (1st Place, $500)

Faculty Teaching Achievements & External Honors and Achievements of Students (external honors of students, graduate and undergraduate)

Eric L. Barker
ASPET Graduate Student Poster Competition-Neuroparmacology Division (at Experimental Biology 2007): Melissa Torres-Altoro (1st place), Marla Yates (2nd place), Ekaterina Terebova, (3rd place); Melissa Torres-Altoro, ASPET Minority Graduate Student Travel Award, FASEB MARC Travel Award; Crystal Walline and Ekaterina Terebova, American Society for Pharmacology and Experimental Therapeutics (ASPET) Graduate Student Travel Award

Robert L. Geahlen
Qing Zhou, 2007 Scholarship for Biomedical Communication, Indiana Chapter of the American Medical Writers Association, 2007 American Medical Writers Association Conference Student Scholarship (National award to attend annual meeting in Atlanta, GA), John N. Davison Travel Award (MCM); Xiaoying Zhang, 2007 Purdue Graduate Student Government Travel Grant

Mark. A. Green
Several students won national scholarships from centralized nuclear pharmacies based on their summer internship performance; Nathan Basken, 2007 Society of Nuclear Medicine Student Fellowship

Cheng-Deng Hu
Holly Durren, Travel Award to 16th International Worm Meeting; John Shyu, 2007 Purdue University System Student Research Competition (1st Place, $500)

D. James Morré
Vanessa Kane, winner of the IMP poster competition and a $500 travel award

Ken R. Morris
David Engers, "Microstructure Evolution and the Physical Stability of Amorphous Solids," 2006 Jenkins/Knevel Award for Outstanding Graduate Research

Christiane L. Nash
Christie Rogers received one of two 2006-2007 Novo Nordisk Pharmacy Practice Diabetes Program Awards. The award, entitled "The Impact of Providing Continuity of Standards of Diabetes Care in the Community Pharmacy Setting," provides a $4,500 stipend to support the research project along with $500 for supplies and equipment

David E. Nichols
Lisa Bonner, AFPE Fellowship

Rodolfo Pinal
Sai Chamarthy, 2007 Gateway Research Scholarship from the American Foundation for Pharmaceutical Education

Kara Duncan Weatherman
Facility International Initiatives

Steven R. Abel
Worked with clerkship students Christopher Thomas and Traci Wozniak to pilot an experiential learning rotation focused on home medication management. The four-week pilot was completed in April 2007, in conjunction with the University of Sydney Faculty of Pharmacy, Sydney, Australia.

Robert W. Bennett
International Nontraditional Doctor of Pharmacy Program, Dubai, UAE - The program was started in January 2003. At the current time, 10 students have graduated; 15 students are completing their advanced clerkships this year, and 40 students divided into 3 cohorts are taking course work. Approximately 10 students will be ready for their clinical rotations by May 2008.

Stephen R. Byrne
Assisting M. T. Carvajal with development of a regulatory program with the Université Louis Pasteur, Strasbourg, France. Developing an Industrial and Physical Pharmacy program and planning a GMP manufacturing facility, Tanzania.

M. Teresa Carvajal
Collaboration to implement IPPH courses for master’s degree at the Université Louis Pasteur, Strasbourg, France; exchange students (first year graduate students) from France to Purdue and from Purdue to France; one student from France.

Judy T. Chen

Gary E. Isom

Yaman Kaakeh
Served as liaison for Aleppo University/Purdue University Initiative, Organized & facilitated discussions between Purdue and Aleppo Universities for the introduction of the non-traditional Doctor of Pharmacy program (ongoing, October 2004-present).

Cynthia P. Koh-Knox

Gregory T. Knipp
Purdue representative to the Globalization of Pharmaceutics Education Network, Inc. (GPEN). GPEN, Inc. was established for the sole purpose of fostering and facilitating scientific exchange amongst international schools engaged in research in the pharmaceutical sciences. Member institutions come from all over the world including Australia, New Zealand, Asia, Europe, North and South America. Purdue has now been invited to serve as an Associate Member of GPEN after our initial invitation to participate in the October GPEN meeting in Kansas. For more information on GPEN, the following link is provided: http://gpen.pharmchem.ku.edu/by-laws.htm. Visited Mexico in November 2006 to establish a student-exchange relationship between the graduate program at the School of Pharmacy at the Universidad Autónoma del Estado de Morelos in Cuernavaca, Morelos, México. A student from this institution studied at Purdue in the Fall of 2007.

Holly L. Mason

D. James Morré
Program on tNOX marker for early detection of malignant melanoma with Department of Dermatology, University of Berlin.

Brian R. Overholser

Rodolfo Pinal
Collaborative program for developing a joint graduate program with Louis Pasteur University in Strasbourg, France.

J. Chris Rochet
International grant application reviews, The Michael J. Fox Foundation (April 19, 2007).

Ellen M. Schellhase
Coordinator of the Purdue Kenya Program. Led and coordinated site visit in May 2007 for Dr. Craig Svensson, Dr. Steve Abel, Dr. Willie Reed, Dr. Sonak Pastakia, and Paul Intervado.

Kara Duncan Weatherman
Developed 8-week clerkship rotation with St. Bartholomew’s and the Royal London Trust, London, England. This rotation will focus on the application of aseptic/cleanroom standards in the preparation and dispensing of radiopharmaceuticals. Two pilot students completed the rotation in March and April, 2007. Four to six students will complete in the spring of 2008.

G. Thomas Wilson
Gave three presentations to visiting pharmacists and pharmacy industry visiting Purdue from Kazakhstan.
    Gave one presentation to pharmacists and pharmacy industry visiting Purdue from India and China.
Research Funding $13,686,877
